This germplasm is being freely distributed by the US National Plant Germplasm System (NPGS) for educational, agricultural research, or breeding purposes. Items flagged 'IPR' have some form of intellectual property protection. Recipients are responsible for contacting the developer listed in the GRIN database regarding legal obligations. This material is supplied expressly conditional on acceptance of the terms of these obligations. The recipient's retention of the material constitutes acceptance.

Note: The National Clonal Germplasm Repository for Citrus and Dates employs a range of pathogen detection and elimination techniques and genetic evaluation procedures for germplasm in the collections. Although this material is believed to be true-to-type and free of pathogens, we do not express or imply any warranty on germplasm distributed. The GRIN and USDA-ARS make no claims as to the germination or the data contained herein. Feedback regarding research results, including any problems experienced, with this material would be greatly appreciated.
